

# BIG Missouri Linked Deposit Program

## 2008 Report of the Linked Deposit Review Committee

Linked-Deposit Program

**Big MISSOURI**

---

*Believe, Invest, Grow*

### **Executive Summary**

- Total linked deposits as of Sep. 30, 2008 were \$234,027,616. This represented an increase of \$48.7 million, or 26%, over the amount of linked deposits as of Sep. 30, 2007. In the previous year (Sep. 2005-Sep., 2006), linked deposits had increased \$59.5 million.
  - Agricultural programs continue to be the largest single category of linked deposits with \$156.2 million. The Small Business Program had \$73.5 million in deposits. The Job Enhancement and Multi-Family Housing programs still continue to see minimal participation.
  - Regionally, the linked deposit program has seen strong interest in the Central, Northeast, Southeast and Southwest regions. Within the St. Louis and Kansas City metropolitan areas, there has been little interest among the larger banks that serve these areas.
  - Nearly 100 financial institutions have used the linked deposit program. The largest users of the program are FCS of Missouri and Progressive Farm Credit Services, both entities of the Federal Farm Credit Bank system.
  - Minority and female participation in the Small Business Program stands at 19% (on a dollar basis). In the historically male-dominated agricultural sector, participation is at 4%.
-

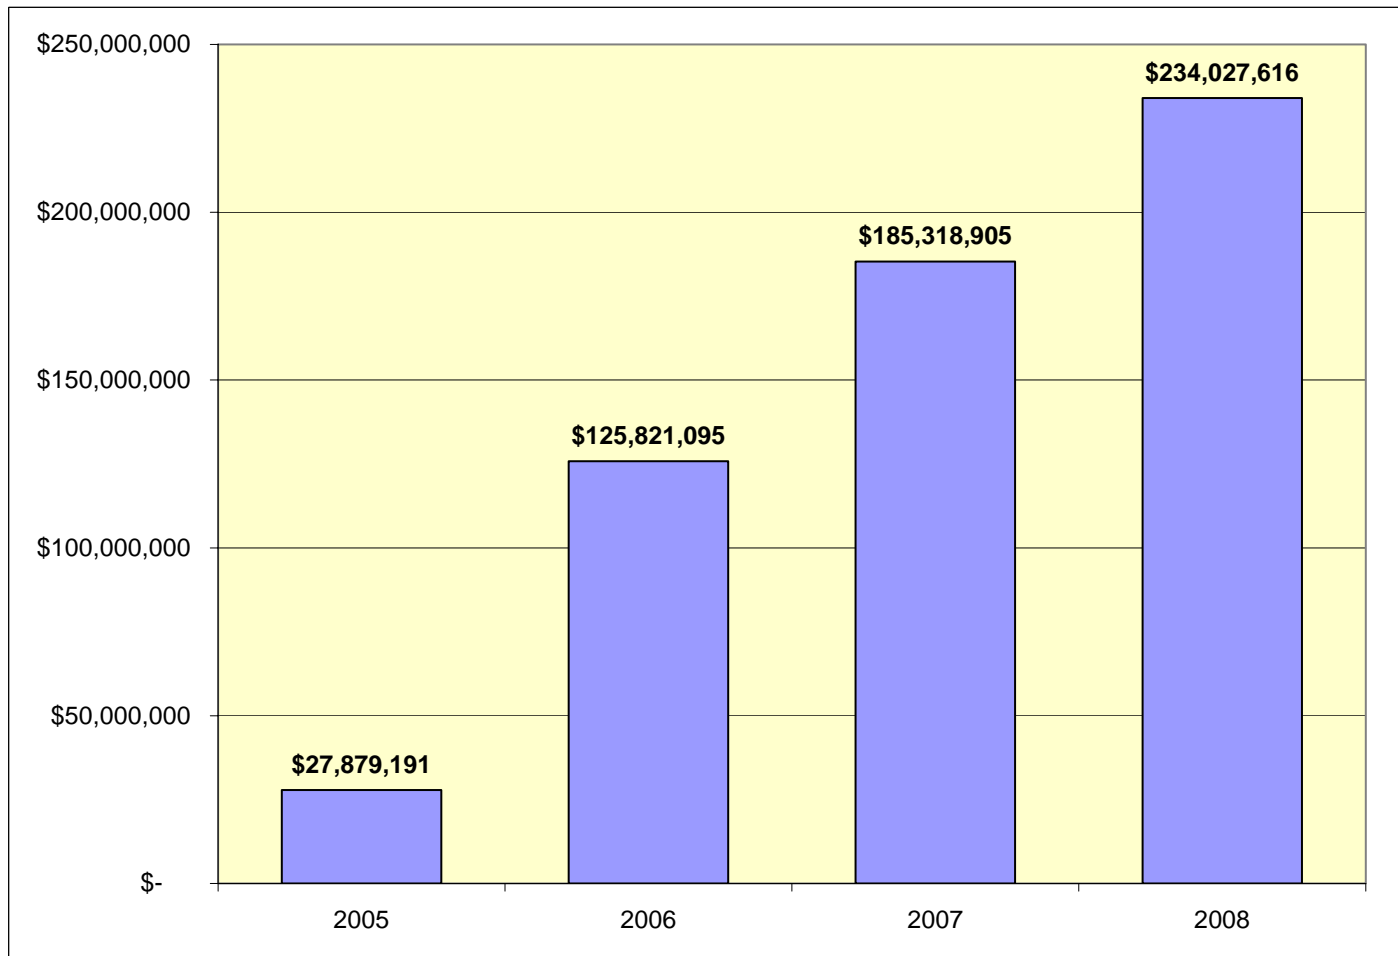

### **Executive Summary (Continued)**

- In 2008, a new program, the Alternative Energy Program, was enacted into law. State Treasurer's staff are working with the Department of Natural Resources (DNR) to develop guidelines for this program.
  - The State Treasurer's Office also announced a new veterans program in which veterans or their spouse receive bonus points for existing agricultural and small business programs. Staff has coordinated this program with the Patriot Express program operated by the US Small Business Administration (SBA).
  - The maximum limit of 25 employees for the Small Business Program and the cap of \$50,000 per new job created or retained for the Job Enhancement Program continues to severely inhibit the usage of these programs, especially in the major urban areas.
  - In 2008, staff made joint presentations with the US SBA to banks in the St. Louis and Kansas City regions. We have seen one large bank, Regions Bank, begin to use the program and we have had productive exploratory discussions with Commerce Bank about a streamlined pilot program. We are hopeful that these efforts will help us break into these markets in 2009. Another large bank that we had been discussing options with, National City Bank, was acquired by another bank recently so we will work to re-establish communications with them in 2009.
-

## Summary of Linked Deposits by Year

(as of September 30 of each year)

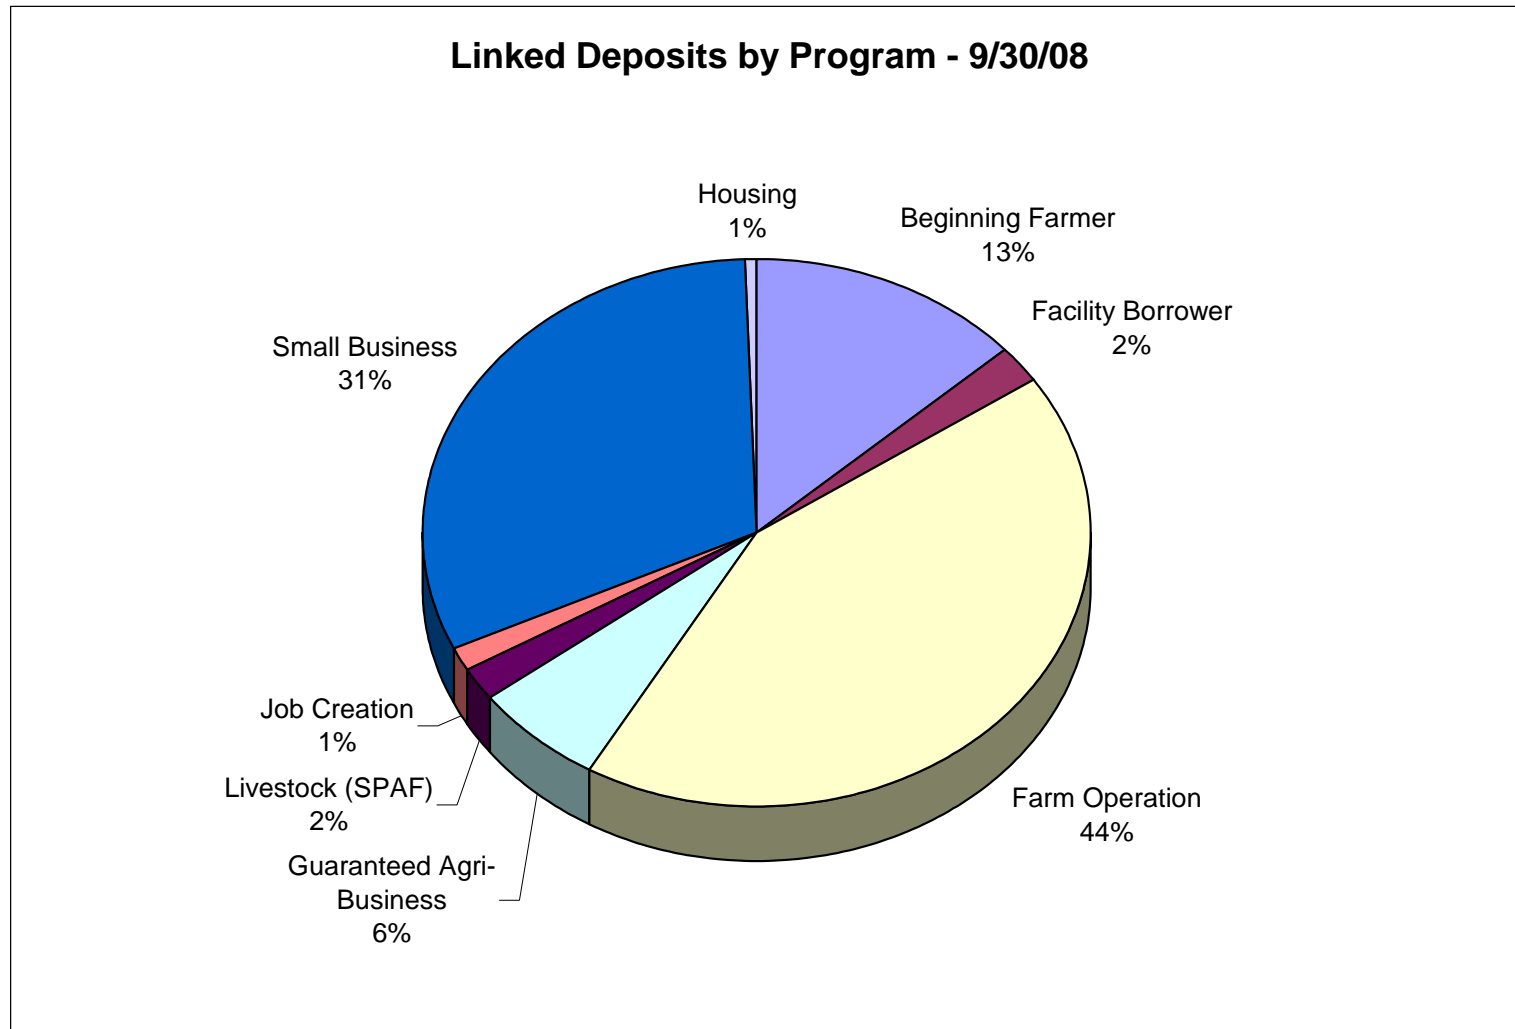

## Summary of Linked Deposits by Program

Program	No. of Applicants	Amount eff. 9/30/2008	Amount eff. 9/30/2007	Change	% Chg.
